

Capabilities Statement

Puritan Medical Products is a privately held, family-owned American company, founded in 1919. Puritan is known worldwide for manufacturing quality swabs and single-use collection devices, producing products for use in the medical, forensic, genetic, diagnostic, controlled environments, pharmaceuticals, food safety and microbiology fields. Puritan's corporate offices and original manufacturing plant are located in Guilford, Maine, with two additional manufacturing facilities located in Pittsfield, Maine. Puritan is the only manufacturer of swabs and single-use devices located in the United States, and has become a leader in the industry for over a century.
